Sir:

In response to the Election of Species Requirement dated April 10, 2008, Applicants elect Species II: an ink jet recording ink and method of using the ink including an oil-soluble dye, a photopolymerizable monomer, and a compound for examination on which claims 25-34 are readable.

Applicants submit that if the elected species is clear from prior art, then all non-elected species also should be considered, together with the elected species, in the next Office Action.

Applicants further submit that if any of the elected claims is found to be allowable, claims dependent therefrom should similarly be considered allowable in the same application.
